PROFILE

Full stack web developer available for part-time and full-time client work. I design and ship custom websites, Shopify stores, WordPress builds, and frontend systems that stay quick, clear, and easy to use on every screen.

SERVICES

Web Development

Custom sites, landing pages, and product UI built for speed.

Shopify

Themes, storefront UX, and checkout flows that convert.

WordPress

Elementor and custom WP builds editors can update safely.

EXPERIENCE

Full Stack Web Developer - Client and project work

2019 - Present ♦ Islamabad

- Build and refine custom websites, Shopify stores, and WordPress sites for fashion, retail, wellness, and service brands.
- Own frontend systems - responsive layouts, performance, and storefront UX from first layout through launch.
- Customize Shopify themes with Liquid, theme settings, and storefront APIs; ship Elementor and custom WordPress builds.
- Work independently with clients on both part-time and full-time engagements, from brief to live site.
